Dusty Rood
President & CEO
Rodgers Consulting Inc.

Dusty is the President and CEO of Rodgers Consulting, a principled and values-centric real estate development consulting and design firm exclusively focused on the private sector real estate interests in Maryland. Over the past 67 years, the firm has been a driving force shaping the most interesting, unique, and successful communities and destinations in the Washington metropolitan region and state of Maryland. Rodgers plays a key and unique role in challenging the status quo and ensuring attention to detail necessary to execute the grandest of community visions. The uber-talented team of professionals at Rodgers has been responsible for projects such as the Kentlands, Crown, Silver Spring Filmore, Suburban Hospital's expansion, the Villages of Urbana, and many more exciting ventures, including the redevelopment of Lakeforest Mall and United Therapeutics' Silver Spring campus.

As the 4th generation leader at Rodgers for the past 10 years, Dusty has cultivated an unorthodox culture focused on going upstream to identify, understand, and solve community needs. He has proven that doing the right and best thing for the community is also the right and best thing for their business and clients.

Dusty's commitment to community extends beyond his professional endeavors. His deep engagement is evident through his past Chairmanship of the Montgomery County Chamber of Commerce, where he emphasized the need to retain and attract a highly skilled future workforce, his service on the Advisory Board of the Universities of Shady Grove, where he helps transform higher education to meet local economic and workforce needs, and his leadership role in Montgomery Moving Forward, where he champions early care and education initiatives.

This dedication to building strong, thriving communities is mirrored in Dusty's personal life. Together with his wife Kristina, he restored a historic property in Urbana, reflecting their shared passion for preserving the past while creating a welcoming home for the future. They live there with their three children, Hailey (11), Charlie (9), and Josie (6), instilling in them the same values of stewardship, resilience, and a commitment to community that define Dusty's professional and personal pursuits.
